Preliminary Review by the Government Statist of the Oversea Import and Export Trade of the State for the year ended 30th June, 1925, compiled from monthly details furnished by the Collector of Customs.

The 1924-25 figures submitted in this review are subject to final revision, but for general business purposes they may be accepted, as any revision which may be eventually necessary is not likely to be of any magnitude. All figures in parenthesis are those for the previous year inserted for comparative purposes.

TOTAL TRADE VALUES. The grand total value of trade for the year was £3,595,708 greater than the previous year, the respective totals being £33,186,953 (£29,591,245) equal to £61-12-7 (£57-3-9) per capita. The year's total trade is a record one exceeding the previous highest by £3,135,323.

IMPORTS totalled £13,978,296 (£12,700,321) £25-19-2 (£24-10-11) per Capita - the total being £1,277,975 greater than the previous year, which up to that time was the record.

EXPORTS totalled £19,208,657 (£16,890,924) £35-13-5 (£32-12-10) per capita - the total increase being £2,317,753. The year's Exports are considerably higher than any previous year with the exception of the year 1919-20, £20,530,355 which was entirely due to the shipment of accumulated wheat stocks as a result of the war.
